Sharkey Seeks Bout With Tunney or Dempsey

MR. LAMONT, our Secretary
of Commerce, called up on the
telephone yesterday by Sir
Henry Thornton, had a pleasant
talk.

Mr. Lamont was sitting in
Washington. Sir Henry was
traveling at high speed through
Canada on the Canadian NA-
TIONAL Railway System.

Sir Henry sent his regards to
President Hoover and the Ameri-
can Cabinet. Seventy-one tele-
phone calls were made from that
Canadian train as it rolled along
on Sunday.

And Sir Henry operates very
profitably a government-owned
railroad that lost money under
private management. That must
surprise our government.

Our best minds, missing our
biggest pocketbooks, dislike the
showing, which refused to pay
bonds bought by boyish Wall
Street bankers.

But those best minds like and
respect anything that shows
business ability.

It interests them to learn that
Russia yesterday dedicated a
new 100-mile railway, pen-
etrating Turkestan and costing
\$100,000,000.

The new railway, all-Russian,
connects the present Great
Asia Railway with the great
Transiberian Line.

Apparently the Russians know
how to do things in a business
and industrial way, whatever
their social theories.

Archaeologists, according to
the Jewish Telegraphic Agency,
have discovered ancient Sodom
and Gomorrah, buried in the
ashes of a fire that destroyed
and punished wickedness with
fire and brimstone. Father Mel-
lon, scientific priest, made the
discovery.

In the ashes were found skele-
tons of wicked men and women.
Implementations discovered show
that the city, destroyed 20 centuries
before Christ, was in the bronze
age. They had not learned how
to use iron or steel.

When fire and brimstone, as
you remember, destroyed the
city of Sodom, the Red Sox,
only Lot and his wife escaped,
and, also, poor thing, was turned
into a pillar of salt because she
disobeyed orders and looked
backward.

In the Middle Ages bishops
and others testified that they
had actually seen Mrs. Lot, wife
of solid salt, still unchanged by
the rains of 3000 years. They
even furnished extraordinary
biological data of peridical ex-
istence to prove the sex of the
salt statue.

Nobody has seen the statue
recently.

Yesterday 8000 of ranchers
revolutionists in India burned an
enormous pile of cloth made in
foreign countries.

The Indian Mahatmas think
he can restore India's ancient
glory by perishing his follow-
ers to wear only cloth made on
hand looms.

Hindu women sang a song of
"sedition" while their husbands
burned that building of cloth
on their own account would do
more for the Hindus than burn-
ing all the English cloth in In-
dia.

In business the British are
reasonable. That is why they
have such a big money and
are rich enough to buy the
site war, with 10 billion dol-
lars help from this country.

In 1918, when the war ended,
Great Britain thought only of
pursuing the Kaiser, and prom-
ised to do it.

This morning you read that
Britain has made an agreement
with the German Dictator,希特勒,
showing him to establish an ex-
clusive Anglo-German air ser-
vice from Europe to New York.

Britain promises not to com-
pete with the German service
and will concentrate on an air
line to Canada.

Germany and Great Britain
but pool their information as to
weather and general facilities.

Meanwhile, this country,
which expects no side of ex-
cess, just looks on.

Very wise, the British, they
act while others sleep.

Fishing Race 'TUNNEY NEXT' Contender in Crash

Hailing out of the Fish Pier on his maiden trip to the Banks, the Gertrude L. Thebaud of Gloucester, newly launched challenger for the Fishermen's Cup, today crashed into the rocks for safety.

The schooner's stern struck the rocks, smashing a hole close to the water line, carrying away the rail and mast, and forcing two of the crew who had taken to the rigging to leap to the deck for safety.

The Thebaud, owned by Capt. Ray Bence, was only slightly damaged, but put back into her berth until a survey is made.

'TUNNEY NEXT' SAYS SHARKEY

Jack Sharkey will see William F. Carey, president of Madison Square Garden, to make an effort to get other Gene Tunney or Jack Dempsey to return to the ring for a bout in 1931 if he is successful in his 15-round world's heavyweight championship battle with Max Baer, which will be staged at the Yankee Stadium on June 12 for the sixth time.

"I believe Bill Carey will be able to talk either Tunney or Dempsey into return to the ring was for a bout with me in 1931," said Sharkey after he finished an eight-round workout today. "I have always wanted to get a crack at Tunney as I feel I have the boxing style and punch to beat him."

FOX TO BE NEW FIRE CHIEF

Deputy Fire Chief Henry A. Fox will succeed Chief Daniel E. Bennett when the latter is retired on a pension shortly, it was announced by Mayor Curley at City Hall today.

Bennett will be 70 years old on May 26 and under the provisions of the retirement act will sever his connection with the city's fire-fighting force on half pay.

Henry Curley let it be known to the reporters at City Hall who questioned him about the retirement of Chief Bennett, that the latter was one of the best fire fighters in the city and has an enviable reputation in combating flames.

In commending on Bennett's superior the Mayor declared, Deputy Chief Fox was next in line for the place and was entitled to promotion because of his knowledge of fire fighting.

PRISONERS MEET AT LEAD IN OHIO

One Dying as Convicts Are Repulsed When They Make Dash for Their Liberty

Columbus, O., April 29

—Rifle fire today put an abrupt end to an attempted general rush for liberty by mutinous convicts at Ohio State Penitentiary. Two hundred shots were fired. Prison guards and militiamen pointed most of their fire over the heads of the convicts to frighten them.

Two convicts, however, were wounded—one so seriously he may die. The wounded are George Tonnoff, shot in the right lung, and Jewell Toffa, shot in the right leg. Both are serving terms for burglaries.

Several prison guards sustained minor injuries. Guard Willis Floyd was cut by flying glass when a prisoner threw a stool against a window.

Convicts screamed and many of them started to cry when the firing began.

The convicts held several guards as prisoners for a short time, but released them when National Guard officers threatened to enter the White City and restore the men.

Today's break for liberty came shortly after National Guardsmen started erection of a barbed wire stockade in the prison yard, in which it was proposed to hold the convicts until the hundreds of cell locks were being repaired.

When the rioting started at 10:15, plans in the guard room and in small windows of the cell block was shattered by the convicts, who carried such weapons as clubs and bars of iron.

LAWSON GIVEN A MONTH IN AUTO CASE

Arnold Lawson of Framingham, Mass., son of the late Thomas Lawson, financial wizard, was sentenced to a month in jail today after conviction in municipal court on a charge of driving under the influence of liquor. His appeal and was released without bond.

Judge Dowd found him guilty after a lengthy hearing, during which both Lawson and his wife took the stand to refute the charges. Patrimony Walter Dowdman of Division 3 had been operating the car.

Patrimony (possibly) said he came upon the Lawson car parked at the curb at Chandler St. near Franklin St., South End, Feb. 20. The car was open, the motor was running and Mr. and Mrs. Lawson were standing on the sidewalk, arguing.

SAVES LAWSON STAGGERED

Lawson, he claimed, staggered and swayed in his seat, and when he asked for his automobile license the defendant handed him a "perpetrator's permit" for driving. He said he was not in the car and that at the time of the arrest Mrs. Lawson claimed she had been driving.

Mrs. Lawson testified that she had driven the car and that she had been driving it for several years. She said that she had been driving it for several years and that she had been driving it for several years.

DRANK WINE, HE SAYS

Lawson, who was not charged with drunkenness, said that he had been at the office for about two or three weeks of part-time work. He said that he had been at the office for about two or three weeks of part-time work. He said that he had been at the office for about two or three weeks of part-time work.

He said he was in the act of turning the key, not standing on the sidewalk, when Patrimony arrested him. Judge Dowd announced his finding of guilt and sentenced him to a month in jail. He said that he had been at the office for about two or three weeks of part-time work.

SENATE PASSES WORK BILLS

By EDWARD L. RODMAN

Wagner, who said that the administration was trying to "un-Americanize" the Senate passed two bills today. The bills were the Federal relief of unemployment.

The bills, sponsored by Senator Wagner, (D) of New York, provide for gathering unemployed workers and authorizing \$10,000,000 to be used as a reserve fund for construction of public works in times of stress.

Over the protest of administration Senators, Wagner then proceeded in having his third bill providing for establishment of Federal employment agencies in cooperation with the state made the unfinished business of the Senate.

Eye Specialist Dies at Greenfield

Greenfield, April 29.—Benjamin P. Goff, 63, a native of Springfield, a graduate of the Jefferson Medical College, New York city, a specialist in diseases of the eye, died at the Institution today after a brief illness. He was a member of the Massachusetts Medical Society and of the New England Ophthalmological Society.

THE DAILY HUBBUB

—BY ANTHONY SKELDING

HighBorn Capers

WE SNOOPED in at the weekly session of the Twentieth Century Club on Joy St. recently and glimpsed His Honor the Mayor at table with George W. Coleman and Kirtley Mather, professor of geology of Harvard.

The mayor's subject was unemployment. He was there to argue and read off several pages of statistics. Probably some bright boy economist from one of the business schools was not so pleased; we observed two old lady club members doing their best to suppress a yawn. The picture he painted was not so pleasant. He was talking of the displacement of labor by modern machinery; and by way of illustration cited the steam shovel now engaged in digging foundations for a couple of downtown buildings. He said James in his newly acquired Harvard accent:

"You know that when George Coleman and I get our physical exercise, we take it vicariously, walking the steam shovels at work."

The mayor was evidently quite as interested as to what he would say. May Day celebrations by the city were not so pleasant. He quoted Governor Wood as saying that the city was in a "state of emergency" and that it was necessary to take "drastic measures" to prevent "anybody who is going to be a troublemaker" from being "a troublemaker" in the city.

High Court Bohemia

Traffic and Cops

THERE is a good old gentleman, one of the few survivors of the mania for the automobile, who has lived for many years in fashionable bachelor chambers in the Esplanement overlooking the Charles. He still holds about with the sentiment of a craftsman and artist. Regularly the first day of each month the old gentleman visits his custom and Herla (possibly) and walks in his downtown bank in each town.

We don't know how much money the old man has, but any how he must be pretty rich. He is a young man, but he has made good but can't make much money. He is a young man, but he has made good but can't make much money.

BUTTERWORTH SEES BIG GAIN IN BUSINESS

Washington, April 29 (AP)—President William Butterworth of the Chamber of Commerce of the United States today paid tribute to American business for its economic growth in the past six months to "rule-of-thumb" economics and its efforts to smooth out the valleys of the business cycle.

In his keynote address before the opening general session of the 18th annual meeting of the Chamber, Butterworth asserted that "American business has definitely broken new ground."

"Last fall," he said, "a critical situation arose which brought clearly into issue the question of whether the allied forces of business and industry, by a closer coordination of their course and experience, could demonstrate that the upward and tickle economic cycle could be straightened out into an orderly and harmonious progression."

Through the forces of that mobilization are still being applied, already the first pages of a highly significant chapter in economic history have been written. New forces have boldly entered the field and challenged the rule-of-thumb control of economic conditions which has heretofore been generally prevailed."

In 1929-30 he said, "we tripped and fell and broke a leg," and, although in 1929 we stumbled again and fell, there were no bones broken."

Report Carol Will Ask Reinstatement

Bucharest, April 29 (AP)—The periodical reports that former Crown Prince Carol of Rumania is about to seek reinstatement as king with the other members of the royal family and return to Rumania were revised today by newspaper reports here that Carol has written his wife, Princess Helene, asking that reconciliation be effected.

The same reports say that Carol has definitely broken with the Lapiers.

15 Guns Salute New Asst. War Secretary

Springfield, April 29 (AP)—Col. Frederick H. Payne of Springfield was confirmed by the Senate yesterday as Assistant Secretary of War, paid an informal visit to the United States army here as his first official act and was accorded a salute of 15 guns on his departure. He was received by Col. John W. Joyce. He will go from here to Watertown area and thence to Washington.

Police Fear May Day Clash in Manila

Manila, April 29 (AP)—City authorities expressed fears today that May day demonstrations may result in a clash between labor elements of Manila.

Mayor Thomas Sparrow met officials of the Protestant Labor Congress, a recently constituted, and the Philippine Federation of Labor. Proposed parades by the two organizations were discussed and district police supervision was renewed.

Lindbergh to Start for Home Thursday

Montreal, Canada Zone, April 29 (AP)—Colonel Charles G. Lindbergh, after inaugurating a new North and South American airmail service yesterday, today said he planned to start his flight Thursday when he will hop off on the first leg of his return flight to New York.

The return is over the same route he took flying here.

Wholesome Desserts Important

Especially in the Diet of
Growing Children

Puddings made of rice, tapioca or cornstarch; custards and ice cream are appropriate desserts for the development of the growing child who is underweight.

Such a dessert not only supplements the other food in the meal but causes the child to leave the table satisfied. And if the desserts are presented in pleasing variety there will be no fear of the child rejecting any of them, thereby missing their nourishing content of milk, eggs and other essential foods.

The part sugar plays in making these desserts appealing should be considered in relation to other foods. Those which are carrier of vitamins, minerals and roughage can be made as inviting as desserts by the use of sugar as a flavor. Cabbage, onion, cauliflower, turnips, sweet potatoes, tomatoes, spinach, parsnips, peas and other vegetables canned or fresh—are much improved in appetizing qualities when seasoned with a dash of sugar to a pinch of salt. Likewise sugar is ideal on fruits and cereals.

Doctors and dietitians approve this use of sugar. For when the flavor of a food is inviting to the taste, the flow of gastric juices is increased, thus aiding digestion. Good food promotes good health. The Sugar Institute.

Jealousy Blamed for Party Shooting

Atlanta, April 29 (AP)—Police and of her friendship with other boys, Alva Warren, 18, as an invited guest, went to a neighborhood party last night, called Miss Edna Jones, 18, to the party and shot her in the back with a rifle. Hospital attendance today said her recovery was doubtful.

Warren was held on a technical charge of suspicion.

35,000 Will Take Vacation at Once

Chicago, April 29 (AP)—The Hawthorne plant of the Western Electric Company has announced it will be closed for two weeks in July to permit its 35,000 employees to take their vacations simultaneously.

The plan was agreed on to eliminate the necessity for spreading vacations throughout the year, and thus lowering efficiency.

Coste Will Try Paris to New York Hop

Paris, April 29 (AP)—Reports at the Villa Coubay field today were that Disdigne Coste, noted French pilot, tomorrow will begin trial flights in his renovated plane, Question Mark in preparation for a transatlantic trip to New York. It was said Coste hoped to take off shortly after the full moon of May 12.

Youths Held for Clothing Theft

Bought for months by the police of several cities, James E. O'Reilly and Harold Hannon, two Cambridge youths, were arraigned in Dorchester court today charged with the alleged larceny of clothing valued at \$663 and unauthorized use of an automobile. The case was continued for a week.

Waltham Council Confirms Nelson

Appointment of the Rev. John E. Nelson, pastor of the First Lutheran Church, as a member of the Waltham park commission, was confirmed last night by the City Council.

He was named by Mayor Patrick J. Dunn to the vacancy caused by the resignation of Chairman Ernest E. Smart. The board will elect a new chairman at its next meeting.

MARY BAKER STRANGLED

Washington, April 28 (AP).—In recognition of the mysterious murder of Mary Baker, navy clerk, took an unexpected turn yesterday when it was revealed that she was killed here were slain into her body after she was dead.

The information came in the course of a short up in new private detectives working on the case. The revelation came additional evidence on the theory that the girl actually was murdered in front of the Navy Department building here on the afternoon of April 11 and that she was dead when the three psychiatrists saw her apparently by being beaten by "the man in the straw hat."

To clear up the confusion arising out of the case, the general belief being that he is involved in the case, the man in the straw hat was seen in a very close resemblance.

Police authorities indicated that further news are expected before the week is over.

Plane Lands Mail

From Bremen's Deck

New York, April 28 (AP).—An airplane parachuted from the North German Lloyd liner Bremen 330 miles at sea, landed four bags of mail at the liner's Brooklyn pier today approximately 12 hours before the ship was due to dock.

The plane alighted in the harbor three and one-half hours after it left the ship.

TRAINED

IN
Helpfulness
to guests

The "homey" feeling which so many Statler guests recognize and comment upon, isn't made wholly by mechanical means, or by equipment.

You like the radio in your room, of course; and the morning paper under your door, and the ice water and the bed-head reading lamp, and the other characteristic Statler conveniences and comforts.

But what most Statler guests are apt to remember longest is the cheerful, helpful service they get in these hotels. They remember, in other words, Statler employees.

And the reason is, that Statler employees are most carefully selected, in the first place, and then are most carefully trained. It is Statler policy to go beyond routine in service to guests, and to meet the unusual request, the emergency condition, with helpfulness.

So, in these hotels, your satisfaction can be—and is—guaranteed.

MEARS FIGURES
ROUND WORLD
FLYING TIME

By JOHN HENRY MEARS
Holder of two former round-the-world records, now made in 1913 and the second around the world in 1924, Capt. F. B. Mears is 1930. Written exclusively for Universal Service.

Los Angeles, April 29.—If only our ship could keep flying, we would be able to circle this old earth in about 142 hours, or slightly less than six days.

But an airplane must have gasoline and filters must have food and sleep, so this figure of 142 hours will have to be our actual flying time.

To this we will add the time we will spend on the ground, and I'll predict that we will return to New York in less than 20 days after our departure on June 1, record hold.

That will be enough to bring the record back to the U. S. A., where it belongs. The first Zeppelin took it away from us with its mark of 21 days and some hours.

My new Lockheed Vega is a beautiful job. Captain Squier of the aircraft concerns has not overlooked a detail in building this ship. He is confident that it will break the record. I, too, am confident. The ship is ready—in fact, they're painting the name, The City of New York, 2nd, on its sides today.

I have only one regret. It is that I cannot, at this time, tell everyone who my pilot will be. He is at present tied up with a German airplane concern on a long-term contract, and until we complete arrangements with this company we cannot reveal his identity, but he is in this country and ready, too.

On all water jumps, the ship will be equipped with pontoon. We will change these to wheels overland.

In the snug cabin of the ship we have installed an efficient radio set. I will buzz its key and send out the story of our adventure each day to the readers of the great chain of Hearst newspapers.

Later this week, my daughter and her friend Miss Alice Dyer, will accompany me to New York in the plane. The ship will be christened there.

8 FIREMEN HURT
IN 'GAS' BLAST

Philadelphia, April 29 (AP).—Eight firemen were injured, six seriously, in an explosion of gasoline today in the subcellar of a filling station in the Chestnut Hill section of the city.

A policeman was burned as he leaped into a window to aid in the rescue a few seconds before the blast occurred.

Shortly after the last fireman had been pulled from the smoldering cellar, three more explosions shook the place.

Firemen were summoned to the filling station after gasoline was leaking through the ground had penetrated the subcellar, where there was a small coal stove.

Girl Bandits Foiled
in Escape Attempt

Auburn, N. Y., April 29.—In a dash though futile attempt to gain liberty, two inmates of the women's section of Auburn prison attacked a matron, beat her unconscious and gained the prison yard, only to be captured by guards and State troopers on duty on the walls.

The women convicts who made the break were Amelia Peterson, 19, of New York city and Sally Joyce Richards, Buffalo's "blonde bandit."

Find Buried Body of
Missing Man's Wife

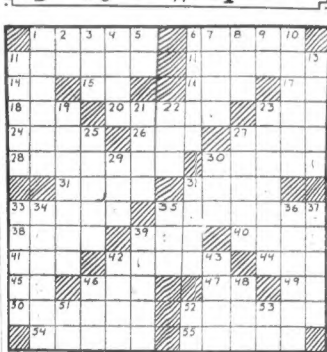

Seattle, April 29 (AP).—Finds of the mutilated body of Mrs. Edith Audrey Lindsay, 55, buried in the garden of her former home here, resulted in an intensive search for her husband, 35-year-old, who disappeared several weeks ago in company with his adopted daughter, 17 years old.

The woman has been missing since February 19.

Boy Fears Whip, Flees

North Adams, April 29.—Police and Boy Scouts were searching the woods for Ralph Uherli, 15, who failed to return from a fishing trip because, it was alleged, he feared a whipping.

ORGANIZE NEW
FLYING OUTFIT
AT FITCHBURG

By GEORGE HAMBLIN
With the spring boom hitting the local flying companies, word comes that a new organization will open at Fitchburg Airport within the next ten days.

The new company will have two local flyers in positions of operations manager, chief pilot, and maintenance chief, J. Arthur Langley, and Joseph Flury. Edward Hall and Grantland Hall, untrained, even though their names are the same, are backers of the new project.

The airport is situated two miles northwest of Fitchburg. At present it has two runways, one over 2000 feet long, in the prevailing wind, and the other, about 1500 feet long. This latter runway will be lengthened to the 2000 feet distance, so that all but the largest transport planes can be accommodated. A hangar is already erected, and one ship has been purchased. The hangar is large enough to accommodate all the planes which are likely to be used for the present year. Two more ships will be added to the company's equipment as soon as the business is organized.

Empty School of 840
Pupils in Two
Minute Drill

Within less than two minutes yesterday afternoon, the Charlestown high school on Monument street was emptied of its 840 pupils who marched out in a quiet, orderly fashion when the fire drill bell was sounded.

The pupils were being retrained in their various classroom, unaware as to whether the fire drill was sounded for a real fire or drill.

Once Capt. William M. Livingston and a squad of police from the Charlestown station were on hand to hold up the vehicular traffic while the children were marching from the school.

The pupils marched back into the school within two minutes.

Accompanying Morrell are Joseph C. Gleason, Albert J. O'Brien, George W. Moore, Harry J. Donnan, John K. Felt, Edward J. Herby, Richard S. Sigurd, Edward P. Pearson and John P. Threlton.

SETTLE CLAIMS
ON ESTATE OF
ATTY. TILDEN

Compromise of two claims against the estate of the late Atty. Calvin S. Tilden of Boston and Swampscott, who committed suicide in a Boston hotel several months ago, was allowed yesterday.

The Fidelity Deposit Company of Maryland, surety on the bond of the late Charles S. Tenny of Winchester, was also named in the claims, filed in Middlesex Probate Court.

One claim for \$29,452.57 and another for \$7,144.35, were brought by Edmund W. O'Brien of Newton, and Cesar in Tilden as trustee under the Tenny will for the benefit of Sarah I. and Charles J. Tenny, minors.

The larger claim was settled for \$20,000 and the Tenny \$5,000, by Albert H. Gleason, guardian ad litem of the Tenny, yesterday.

Audit of Tilden's accounts after his death showed no mismanagement of the trusteeship of the Tenny estate, which, according to the will, was to be originally worth \$45,000.

"every suit has
two trousers"

— although it's really
worthy of headlines

"How much are the extra trousers"? We've been asked that question a score of times during the past few weeks — very much to our surprise. We've been taking it for granted that everybody knew Bond prices always include "the extra trousers"! [We've said so for 16 years.]

But perhaps we shouldn't be surprised after all — because the very excellent clothes featured all over town at about our prices, or higher, invariably include only one pair of trousers!

And so, the Bond idea of "two trousers with every suit" becomes of headline importance. Our distinguished British fashions are made to give double service. The richest woollens wear twice as long. And there's always a freshly creased pair of trousers ready to keep you looking fit and well-groomed. It's the extra pair that's included in every Bond price — the extra pair made possible by the unusual savings of operating our own factory.

Enjoy this added service with your next Bond suit. It costs no more!

HER SIN WAS NO GREATER THAN HIS

but *She* was a Woman!

A great talking picture has come from the magic studios of California. It is destined to win a nationwide fame accorded to few dramas of the screen. It is being discussed as no other screen play has ever been discussed!

Here at last the story of modern marriage is told fearlessly, beautifully, thrillingly! So sweet was their romance, so heedless were they of the pitfalls of their irresponsible set! But the bride of yesterday is "the divorcee" of today. Life brings her its bounty. Life gives her everything—except her man. Then finally they meet in the mad gaiety of a Paris cafe. And of all your screen memories you will never forget the glorious thrill of this meeting!

The performance of beautiful Norma Shearer in "The Divorcee" is an unforgettable achievement. Following closely her success in "Their Own Desire" Miss Shearer's new contribution to the Talkies establishes her without question among the first of the speaking screen's greatest performers. "The Divorcee" will give you the supreme thrill of all your movie-going days.

WHAT HAPPENS TO LOVE?

The happiest moment of their life

Alice White explains why some girls are so Enchanting

ALICE WHITE, petite First
National star, in the bathroom
created especially for her in Hol-
lywood. She says: "Lux Toilet
Soap gives my skin that peach
bloom smoothness that is so
important to a girl's charm."

Photo by
Kaiser Press, Hollywood

"WHEN a girl is fascinating," says dainty
Alice White, whose vibrant charm
earned her so swiftly to stardom on the
screen, "you may be sure of one thing. Her
skin is lovely!"

"Beautiful skin always attracts. It is
certainly the most important charm any girl
can have."

"In Hollywood, you know, the directors
all found out long ago that if a girl is to
win millions of admirers on the screen, her
skin must have that peach-bloom smooth-
ness that is so ravishing."

"The glaring close-
up lights would reveal
even the slightest im-
perfection in the skin.
And so, of course, every
star in Hollywood
guards her complexion
most carefully."

"So when I say we
use Lux Toilet Soap—
almost all of us—you
may be sure we think
it is a splendid soap."

Such soothing lather, and it leaves the skin
so exquisitely smooth and soft.

"It is such a simple way to keep the skin
lovely! Any girl can follow it, with the
same good results."

9 out of 10 Lovely Stars use it—
in Hollywood—on Broadway—in Europe

Of the 521 important actresses in Hollywood,
including all stars, 511 are devoted to Lux
Toilet Soap. All the great film studios have
made it the official soap for their dressing
rooms!

The lovely Broad-
way stage stars, too,
have discovered that
Lux Toilet Soap gives
their skin just the gentle
care that is required.

And now the Euro-
pean stars are using
this fragrant white
soap! You, too, will
want to try it. Order

Anne Makes Chicago Trip

Miss Anne J. Sheridan, 45, of Ashmont, takes a leading role in "The Office Wife" by Faith Baldwin. The novel is being serialized in the Boston Evening American. The story follows the life of a woman who is married to a man who is a successful businessman. She is a woman of many talents and is a very successful businesswoman. The story is a very interesting one and is well worth reading.

CHAPTER XV
The Queen
The Queen of the office was a woman of many talents. She was a very successful businesswoman and was well known in the office. She was a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office.

Final! said Eaton, following that appreciative pause. "We'll go over the ground again together. Get Lawson back on the wire for me, will you?"

She hit so and a little later she was sitting in the office. She was a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office.

For sending my secretary to the office, I am sorry. You know what it's all about. She's leaving on the Broadway Limited. I'm sorry to see her go. But she's a very good girl. She's a woman of many talents and was well known in the office.

He said, "I'm sorry to see her go. But she's a very good girl. She's a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office."

"If you tell him not to bother me, I could take a taxi to his house." She said, "I'm sorry to see her go. But she's a very good girl. She's a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office. She was a woman of many talents and was well known in the office."

"I didn't suggest that you go tonight," he said, "because it might make it difficult for you to arrange your plans. And there's today's work to get through with tomorrow morning. So if you're willing tomorrow afternoon, I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you."

"I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you."

"I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you. I'll be glad to go with you."

Col. McKirdy Profits by Ruling Against Argonne

Col. BOB MCKIRDY of the Argonne Club was preparing for a busy week when Mr. Boston met him today.

"I understand, Colonel," opened Mr. Boston, "that you have signed Andy Callahan and Johnny Farr for a bout at the Arena on Friday night."

"Yes, replied the Colonel, "I wanted the match, when the Argonne Club was battered by a court order from staging it. What is the Argonne club's loss in the arena club's gain?"

"Understand, Colonel," opened Mr. Boston, "that I believe Mack has a contract with the Boston Garden under the terms of which he can not operate any place outside of Merchants Building until after August 15. The Garden asked for no injunction against Mack and the Argonne A. A. when the Callahan-Farr bout was announced for the Arena."

"Mack got up to defend the fact he resigned from his various offices in the Argonne club as of April 15. The Garden then produced a letter written by Mack, on April 15, in which he held himself out as an officer of the Argonne A. A."

"Mack and the Argonne club were then expelled from operating in the Arena. The club's next proposition will be in Merchants Building, on May 17, when Al Friedman clashes with Joe Monte. As the Garden plans one of its diamond ball shows on May 12, A. A. and the Garden would clash, head-on, again. Such affairs don't help the boxing game no matter who comes out the victor."

Lieut. L. J. Flaherty Post to Stage Smack Talk

MR. BOSTON has received an invitation to attend a smoker which will be held by the Lieut. L. J. Flaherty Post at the City Casino, 1100 Boston, on May 7.

"Some of the best of our boxers and wrestlers will give their services to help make the affair a success," asserted Mr. Boston. The profile of the show will go to charity.

By BILL GRIMES

In spite of the fact that Brae Burn is playing The Country Club at Brookline in the second round of the Boston Four Ball League this afternoon, in all probability the West Newton aggregation will start opening up a gap between itself and the other contenders.

In the opening match of the season on a quiet Wednesday, Brae Burn edged only a half point, 1-1/2, the first three holes in the match. The first three holes in the match were played in a tie, but Joe Heene and Bobby Topkins managed to win a half point for Brae Burn from Hutter and Korta.

The Country Club was on the scene and of a 3-2 match with Brae Burn. River last week and apparently will not be sufficient strength available to stop Brae Burn.

Although Brae Burn is expected to win its No. 1 team, regardless of which combination is assigned to the honor berth, will encounter plenty of trouble with Rodney W. Brown and Parker W. Whittemore. The Brown-Whittemore combination is one of the strongest in four ball competition, having suffered very few defeats over a period of many years. Aside from Brown and Whittemore, The Country Club does not compare favorably with Brae Burn even while playing on its home course.

Finest Match of Season Is Prospect Today

If Emory Stratton and Bill Bluff are paired together and bail off for Brae Burn against Brown and Whittemore, one of the best matches of the season is in the offing. Otherwise it looks like a romp for The Country Club victory.

Bluff got off in a fine start in the opening match at the expense of the much weakened Common wealth team. Jimmie Travers and John Sullivan have even with Bill Munell and Mike Hunt but the match brought Commonwealth's better quota of points. Oakley met up with his first real competitor this afternoon when the ace Charlie Winchester at the latter's expense.

Charlie River Junior's Club has an opportunity to put a little bushy and the wind's pulse "11" in 10.

NEW YORK CURB MARKET

Trends of the Day

PRICES EASIER IN BOSTON DEALINGS

Prices were generally easier in dealings today on the Boston Stock Exchange. Point to move lower was received from Boston, New England Telephone, Economy Stores, Quincy, St. Mary's, New Haven, Burlington and Vermont.

Old Colony Railroad eased over a point. Hygrade Lumber moved up as much as 1/4 point, coming in at 10 1/2. The stock is being sold in the market at 10 1/2. The stock is being sold in the market at 10 1/2.

American Telephone & Telegraph. The readjustment which is taking place in the market at present may or may not have been completed, but at any rate, the blue chip investment stocks which will be the quickest on the rebound, American Telephone & Telegraph, has received some news 20 points since the announcement of the rights was made, and the optimistic reports which were in evidence at that time still hold true. Although the burden of the rights may hold back any immediate duplication of the gains of preceding weeks, that quarter of the financial district which makes a habit of anticipating future price movements with more than the normal degree of accuracy have set a goal of 300 for this stock.

American Can. No general, the general is taking a prominent hand in the market.

Behind the Active Stocks

UNITED POSITION. United Corporation was fairly well supported but like other utility stocks reflected the less aggressive activity of investors. The influence of the reactionary character of the general market.

RADIO SELLING. Radio felt the effect of heavier market pressure and was taken up as the rest of the market turned weaker. Investors continue to talk bullish for the long pull.

S. O. N. J. BUYING. Even the sale felt the effect of the enhanced nervousness. Standard Oil of New Jersey was well taken.

POWER CORP.'S DIVIDEND UP. New York, April 28.—Stockholders of Saratoga River Power Corp. today received word from the company that the dividend on the common stock has been increased from \$1 to \$1.50. Dividends are payable quarterly on January, April, July and October.

STEELS DECLINE. Steel continued to give the answer to the market. It reflects the effect of the market's reaction to the steel industry's report that the demand for steel is not as strong as it was in the past.

PHILLIPS GROUP WORK. Phillips Petroleum referred more to the market of interest. Special work has been organized, it is claimed, to bring about a change in the industry.

MONT. WARD PROFIT-TAKING. There was rather widespread trading in profit-taking in Montgomery Ward & Co. stock. The company has a long and rather tough job ahead of them.

General Electric

General Electric Co. has reduced its price of common stock from 100 to 95. The stock is being sold in the market at 95.
